This is a nice sturdy case for the Raspberry Pi 4 Model B that has all the features I wanted to see:

- Pi drops easily into place, then is secured with M2.5 self-tapping screws.
- Top clips on securely, but is easy to remove.
- Vent holes for common fan hats
- Ribbon cables slots for camera and monitor (top and end) as well as GPIO
- Clearance for HDMI / USB-C cables to plug in fully
- Easy access to SD card slot
- Bottom has surface mounting keyholes (four orientations) and recesses for rubber feet.
- Raspberry Pi logo (of course!)
